

## Keep Your Team Healthy, Safe, and On the Job.

For over 60 years Professional Health Services has worked with all types of businesses, federal and state agencies, and municipalities to protect the health and well-being of their staffs. At PHS we have turned our wealth of experience and knowledge in providing occupational health testing programs into a service model to assist with the protection of front-line organizations, their staffs, and those they serve. As COVID-19 disrupts our nation we are now providing a comprehensive list of Corona Virus testing services that includes:

- Corona Virus Screening (Nasal Swabs)
- Corona Virus Antibody Testing
- Pre-shift Temperature Checks
- Respirator Medical Evaluations
- Respirator Fit Testing

### Contact us today to find out how we can help!

#### Healthcare

Keeping our nation healthy is no easy task and PHS is here to support those who are most vulnerable.

#### Police

PHS Mobile Health Testing has a proven track record providing on-site health screening services to the Public Safety Community.

#### Industry

We're happy to extend our new Covid-19 services to the individuals who helped build our country.

#### Firefighters

PHS has always been proud of our long history of assisting in comprehensive on-site medical services for the Fire Services community.
